

NeuroVision

Brain MRI Analysis Report

Image Information

Image	train_glioma_gg (201).jpg
Dimensions	512 × 512
Analysis time	2026-09-14T16:36:27.331922

Analysis Result

Final classification	Glioma
Tumor detected	Yes
YOLO26	Glioma (91.60%)
ResNet50	Glioma (96.00%)
Models agree	Yes

Tumor Characteristics

Width	47
Height	46
Area	2162
Relative area	0.82%
Area category	Small
Location	Middle-Right

Research Risk Analysis

Risk level	Lower
Risk score	1
Location type	Peripheral
Area category	Small

Detected Regions

Region	Class	Confidence
det-1	Glioma	91.60%

Important: NeuroVision is an academic research prototype. Its classifications, image-based tumor characteristics and research-defined risk stratification are not a clinical diagnosis, prognosis, treatment recommendation or medical risk assessment.
