

NeuroVision

Brain MRI Analysis Report

Image Information

Image	train_glioma_gg (23).jpg
Dimensions	512 × 512
Analysis time	2026-09-14T16:42:34.893320

Analysis Result

Final classification	Glioma
Tumor detected	Yes
YOLO26	Glioma (93.64%)
ResNet50	Glioma (99.99%)
Models agree	Yes

Tumor Characteristics

Width	55
Height	73
Area	4015
Relative area	1.53%
Area category	Moderate
Location	Middle-Center

Research Risk Analysis

Risk level	Lower
Risk score	1
Location type	Central
Area category	Moderate

Detected Regions

Region	Class	Confidence
det-1	Glioma	93.64%

Important: NeuroVision is an academic research prototype. Its classifications, image-based tumor characteristics and research-defined risk stratification are not a clinical diagnosis, prognosis, treatment recommendation or medical risk assessment.
